

High-Titer, One-Step Lentivirus Production

- **Lenti-X Packaging Single Shots (VSV-G)** provide the highest titers (10^7 – 10^8 IFU per ml) and widest tropism
- **Lenti-X Packaging Single Shots (Ecotropic)** restrict tropism to cells of mouse and rat origin
- **Lenti-X Packaging Single Shots (Integrase Deficient)** produce VSV-G pseudotyped lentivirus that has a significantly reduced ability to integrate

Cat#	Product	Kit Size
631275	Lenti-X™ Packaging Single Shots (VSV-G)	16 Rxns
631276	Lenti-X™ Packaging Single Shots (VSV-G)	96 Rxns
631277	Lenti-X™ Packaging Single Shots (Integrase Deficient)	16 Rxns
631278	Lenti-X™ Packaging Single Shots (Ecotropic)	16 Rxns
